

FALLING STARS

Verse 1 -

Fallin' from the sky, 30 thousand feet up in the air/
Floatin' like I just don't care/
My brain is on overload, listen to the drum loop, listen to the harp/
Sounds like angels talking/
I'm freed from all adversity up here in the sky/
Cause when you're forced to fly, it's kinda do or die/
Nike, just do it, swoosh, I'm on it./
You learn to never back a raging bull into a corner/
You live & you learn, you die & you burn/
Unless you got the keys to the kingdom then you earn/
A one way ticket. So smooth you think I biced it/
I deadbolt the door from inside that old man got evicted from my heart/
I'm following the son, I'm roamin' in the desert/
His word is my rainbow leading me to treasure/
The pleasure is all mine, His love is somethin' we can all find at all times/

Chorus -

A falling star fell from your heart & landed in my arms 2X

Verse 2 -

The whole world rejoices, Jesus is returning'/
I woke up repenting' from a full day of ventin'/
I'm human so sue me, betta call up judge judy/
I'm not completely sure that God is always speaking' through me/
But oh well, I'm honest, He knows me betta than my momma do/
He counts the very hairs on my head, even the ones I pulled out/
From stressing, I'm slow to learn my lesson/
I fall & then I get up, I gotta keep on pressin'/
We are all his stars floatin' in the atmosphere/
Today is our day, this year is our year/
We winnin', & don't stop grinnin'/
And the day I stop sinning', is the same day I died/
But at least I died tryin'/
At least I died flyin', I will not die lyin'/
I spend my whole life leadin' people into Zion/
Cause this world is crazy & there's nothing' we're controllin'/
Free your mind, go head let the Soul win/

Chorus -

Father, we thank you for, for your blessings. It's like falling stars, it's so beautiful, God, everything you've given us. We aren't worthy Lord. Yeah, I'm floatin', I'm floatin', I'm floatin', I'm floatin', I'm floatin'.
