

ILLUMINATE (FEAT. CANON)

BY: JE'KOB

Chorus

You can't create the dark, can only lose the light
And you can't fix what's wrong, unless you know what's right
So in this dark dark world
So in this dark dark world
Let us illuminate
Let us illuminate

Verse 1

Lights go out, streets go dim /
Like my boy NoMalice said, it's time to hear ye him /
And what's the point of the light if you're gonna hide it underneath every rock
and bush /
Boy it's dark outside everywhere you turn - Stop and look /
Illuminati, they're on their grind /
But I got that real light and I'ma let it shine /
Say what would Jesus do? Homie we don't know /
But I know what he told me I should do so I'ma let it glow /
See I don't got no time - for haters /
I'm watering my vine - oasis /
Ain't no mountain I can't climb /
It's dangerous /
But this little light of mine can save us /

Chorus

You can't create the dark, can only lose the light
And you can't fix what's wrong, unless you know what's right
So in this dark dark world
So in this dark dark world
Let us illuminate
Let us illuminate

Verse 2

Canon Verse

Chorus 2X

You can't create the dark, can only lose the light
And you can't fix what's wrong, unless you know what's right
So in this dark dark world
So in this dark dark world
Let us illuminate
Let us illuminate
