

IN THE BEGINNING

By: JE'KOB

Everything was dark there was no form, let us go back to the very beginning /
The spirit of God was moving' over the water before He decided to create
everything in it /

He was just west coastin' lookin' at the water, there was no life, everything was
void /

There was no wind, there was no sky, no dry land, and there was no noise /

Said let there be light & then there was /
It shined so bright that the Lord was pleased /
The He separated and named day and night /
and all of that on day O.N.E. /

Then he separated the water below from above /
And he called the water that is up there "sky" /
And that's moisture, and how the rain drops, and that's when we see the earth
cry /

And that was day two, and on day three that's when the land started taking it's
shape /

Then he made seeds that would turn into plants, some of them to bare fruit &
then some to bare grain /

Then on the fourth day he made two lights, so they could rule over day & the
night /

Not the same light that he made on day one, see these are the lights that
define our time /

Days & years, hours and minutes, sun & the moon & the stars in the sky /
Tell us what time it is no matter where we at no matter where we go they will
shine /

On day 5, God made life, fish in the sea & the birds in the air /
God blessed em all, told em to fill up the place that they live so that's just what
they did /

Then came the animals that walk on land, domestic & wild, small & large /
Created with a simple thought from the architect, the only real Charles in
charge /

And that was day six, but yet He wasn't done, all of that was made right before
He formed us /

Cause on that last day, that's when it would all change & He'd create the things
that He loves /

Let us make man in our image, let them resemble us /
Formed from the dirt, that's why we are, ashes to ashes & dust to dust /

He put us in charge of every living thing, told us have children & multiply /
That's why a man & a woman will only be able to ever produce this life/

This is who we are, this who we've been, no matter how these times may
change /
God is still God, Man is still Man, power is still within Jesus' name /

Hail the creator the one who is light, the God who separates day from the
night /
One who distinguishes wrong from the right, for Him I easily would give my
life /
